A woman with curly hair is looking at a tablet in a server room. The room is filled with server racks and has a blue ambient light. The woman is wearing a dark top. The background shows server racks with various labels and lights.

Introduction

Swan Technologies is an IT solutions company based in Dar es Salaam Tanzania. Over the years, the company has grown to become the most trusted companies in East Africa due to its consistency in service delivery and commitment in fulfilling its promises.

We provide professional and consistent IT support for our clients and their staff so they can work productively and have trust in their IT systems. It's our mission to provide exceptional, current and enterprise class services to our clients. We value the relationships we build with our clients and work hard to keep them happy and their environments stable.

Our Core Values

We stand behind our work. As a mission-critical technology partner, it's not only our job to provide exceptional service, but we must do so with the utmost transparency to gain trust and confidence.

Our company culture encourages our team to never stop learning, to excel at what we're good at, and to always love the work we do. It fosters a sense of pride that reflects in our careers, and our personal lives as well.

OUR SERVICES

Managed Services

We can provide the resources, knowledge-base and experience required to create an effective long-term IT strategy for your business. Let us improve your business operations by leveraging maximum efficiency from your existing IT infrastructure..

IT Infrastructure

Our solutions address business needs across: Computing, Networking Design & Integration, Storage, Backup and Recovery, Security (Data, CCTV and Access control), Consolidation & Virtualization and Data Center Solutions

Cyber Security

Cyberattacks are constantly evolving, and traditional countermeasures are no longer enough. We will use every tool available to us in order to safeguard your business from any current or future threat

OUR SERVICES

Software

Swan Technologies understands your challenges and needs; we bring in a pool of highly qualified, talented and certified professionals, backed by global brands including IBM, Oracle, Microsoft, VM Ware, Red Hat and Sage.

Communications

We provide Convergent Communication solutions that streamline the ability to route communication, ultimately reducing latency associated with human interactions. Together with today's ever decreasing cost of bandwidth within and outside the enterprise.

Printing & Imaging

We offer solutions for any customer, whether a production printing press, an office looking for a centralized networked printing center or even someone looking for a multi-function device for a home office whether you intend to purchase or lease.
